Re: Remote Operations due to COVID - 19

As part of the response to the Covid-19 (coronavirus) current situation, the Ponce Health Sciences University Registrar's Office will operate remotely. During this period of remote services, we will continue to certify students and information to agencies online, as long as the system allows it .

Services like transcripts, verifications, and certifications will be limited during this time. We will be receiving the requests and applications to process as soon as we return to normal operations.

We will provide service and orientation by email at registrar@psm.edu and through videoconferences.

We are sorry for the inconveniences these may cause. Thank you for your understanding.

Respectfully,

María Elena Torres-Alvarado, MS
Registrar
